

WEAU Committee Charters

COMMITTEE:	SOUTHERN UTAH
MEETING SIZE:	Open
MEMBERSHIP:	Chairperson, Co-Chairperson and members appointed by the President.
CHARGE:	The Committee shall develop, recommend, and assist in conducting programs to provide training and involvement opportunities for operators in Southern Utah.
REPORT:	A report summarizing the year's activities should be submitted to the President at or prior to the Annual Meeting. Recommendations for the coming year, including committee membership, should be included in the report.
GOAL:	2022-2023 I am continuing to try and form a “committee” of WEAU members down here, most of it at this point is “involuntary”. As far as activities, right now we are planning on doing a “Treatment College” this fall. Last fall we did a “collections college” and followed the framework that Lonn Rasmussen has set-up and it worked out great. We only offered it to Ash Creek employees, but all who attended passed their tests. We intend to hold the treatment college this fall, but to invite other southern Utah operators as well. As of right now we anticipate teaching the course through September and October leading up to the November certification test date. We don’t have any budget needs. Our goal is a 100% pass rate on this fall wastewater treatment operator exams!
